Huntington and Towne Arrive in the City.

Mr. Huntington Talks Pleasantly bu Not Volubly.

An Important Meeting of the Southern Pacific Directory.

ne Retirement of Maj. Wilkins from the Santa Fe Service Causes the Boys a Great Deal of

Last night at 9 o'clock C. P. Hunt ington, first vice-president of the Southern Pacific, and A. N. Towne, general manager, arrived in this city in two special cars. They were not expected until this morning, and Col. Hewett was of the opinion that they would spend several days in Los Angeles and vicinity, looking over their lines and branch roads in fouthern California, but they are compalled to go on to San Francisco, as there will e an important meeting of the directors of the company on the 1st of next month, when all of the directors are to be present, not excepting Mrs. Hopkins, who is already in San Francisco. In answer to a question regarding the meeting, Mr. Huntington stated that it will be the most important meeting that has been held for some years. They intend to map out a great deal of work for the coming year, and new roads will be built in various sections of the country. The directors intend to shorten the Sunset line, and make it the best equipped line in the United States.

Mr. Huntington stated that they intend to make many improvements in Southern California, and when asked about the machine shops in East Los Angeles, stated that they would be built. rectors of the company on the 1st of

built.

In speaking of the improvements to be made during the coming year, Mr. Huntington said the line from El Paso del Norte would be extended down into Durango, Mexico, thus opening up to settlement some of the finest mining country in the world.

The proposed line of steamers from Galveston, Tex., to Brazil, about which so much vague talk has been indulged in of late, will probably be put on by Mr. Huntington very soon. This will be a big thing for the Sunset route.

will be a big thing for the Sunset route.

For some days past it has been rumored in railroad circles that Mr. Huntington was about to make many changes in the management of the Southern Pacific Company, but on being questioned the great railroad man stated that Mr. Towne will hold his old place as general manager, and that none of the other departments will undergo any changes.

none of the other departments will undergo any changes.

Several San Francisco papers have circulated a sensational story to the effect that Mr. Huntington's chief reason for visiting the coast is for the purpose of looking over the Santa Fé routes with a view of securing a controlling interest in that corporation. When questioned on this point, the gentleman simply laughed and said there is no truth whatever in the story. The Times discredited the story when it first came out.

For some time past Mr. Huntington has had his eye on Southern California, and from what he said last night it is very certain that he intends to devote more attention te matters on this coast in the future than he has in the past.

It is evident from the following spe-cials to the Chronicle that the Inter-state Commerce Act is being violated right and left. A special from Wash-

St. Paul., March 18.—The Supreme Court has decided that the Railroad Commission of this State has no authority to prescribe rates for transportation by common carriers between two points in this State over a route extending across a neighboring State. Such power is vested exclusively in Congress. The case in question is the State of Minnesota, tex the Railroad Commissioners, va. the Omaha road.

Chicago, March 18.—The Chicago, Burlington and Quincy has taken off a number of its local passenger trains in Illinois and Iowa, reducing the service 500 miles a day. It has also been decided to discontinue running Sunday trains 5 and 6 between Chicago and Council Bluffs. These changes are made in the interest of economy, the company having adopted a policy of retrenchment, with a view to recovering a portion of the losses of the past year.

New York, March 18.—The bondholders of the Mexican National Railway met today in accordance with the previsions of the reorganization plan, and nominated the following directors to be voted for at the annual meeting at Colorado Springs on April 1st: William G. Raoul, J. A. Horsey, Charles C. Beaman, George Copsell, Lloyd Aspinwall and Eckstein Meniton for the six nominees-residing in the United States, and Emilie Heisseo and Manuel Salvedre.

A suit was begun yesterday by A. de Neuf vs. the Seuthern California National Bank and M. G. Aguirre, Sheriff.

The plaintiff enumerates a number of diamonds, with their values, which he alleges he owned, and charges that the defendants seized them, and illegally appropriated them to their own use. He places the total value of the diamends at \$1300, and asks for judgment for that amount.

Frank T. Merithew began suit against James Orr, as executor of the estate of M. W. Orr, deceased. The suit is to recover judgment for \$761.32, in which sum the plaintiff alleges the deceased was indebted to him, and which has never been paid.

John West began suit against George E. Freeman, William McKelvey and Wolfgang Nigg. The plaintiff desires to recover judgment for \$2400 on a promissory note given by Augustus Johnson vs. W. D. Rogses to recover judgment.

ants.

A suit was begun by Augustus Johnson vs. W. D. Rogers, to recover judgment for \$465.50, alleged to be due him by the defendant.

Yesterday afternoon between 2 and 3 o'clock, as Deputy Sheriff Billy Hammil and Deputy Cline were riding along Alameda street in a buggy, they heard a shot from one of the side they heard a shot from one of the side streets, and, on going to the spot, found an Italian, who said his name was Frank John, attempting to conceal a revolver under his vest. He denied that he had fired the shot, but when his pistol was fished out it was found to be still smoking, and it was learned that he had shot at some boys in the neighborhood. He was locked up, charged with assault with a deadly weapon.

Fire Alarm.

Fire Alarm.

Last night about 7:30 o'clock the fire department turned out in answer to an alarm from box No. 31, at the corner of Spring and Second streets. No fire could be found in the neighborhood, although some one told Chief Moriarty that it was back of the building adjoining the Bryson-Bonebrake block. The Chief and a Tries reporter made a tour through the rear portions of the buildings where the blaze was alleged to have occurred, but not even a spark could be found.

That First-street Cut.

That First-street Cut.

It was stated on the streets yesterday that M. J. Wicks and Mrs. Shepard would try and stop the opening of First street by taking out an injunction. These parties want a 80-foot tunnel through the hill, instead of having the streetopened in the regular way by a cut. All the other property-owners in interest favor the cut, and it is believed that the injunction can be defeated, and the work allowed to proceed.

Commerce presided and Secretary Higgins of the Chamber kept the minutes.

There were about 30 gentlemen present. Besides these gentlemen all of the agricultural, pomological and other organizations were represented.

W. E. Hughes, who got up the scheme, was invited to address the meeting, and he stated that it is the commerce of the electric to unive their ellipse, and he stated that it is the commerce of the ellipse of the entire United States.

"I me consider that an one day 300 pounds in another organization while that an one day 300 pounds in the stated that it is the commerce of the entire United States.

for the building, etc. If we run it during a shorter period, of course we will have to raise a considerable sum; but I have known several institutions back East that were not only self-sustaining, but paid a handsome dividend to the stockholders."

The speaker then exhibited the plan of a building 300x300 feet, which will be very handsome if it is built. "I am confident that such an enterprise would be the means of bringing a large number of tourists to this city. If the chamber will take it up there is no doubt that it will succeed."

Mr. Litchenberger, president of the Sixth District Agricultural Association, approved of the scheme. The speaker gave a brief history of the ups and downs of the Sixth District Agricultural Association, and said: "There is a general impression that the money appropriated to the fair association goes to make up purses for horseracing, but this is wrong. Not a cent of that money goes to make up purses. We need a building, and we have that ground at Ag icultural Paik, which belongs to the city or people, and that is the proper place for an exhib tion building. If we put up a building out there, we will have it for ali time to come, but if we put it on rented ground we will have to tear it down very soon. This year we get \$3500 from the State, and every cent of it will be paid out for premiums on fruits and natural products, but not on horse-racing, as some think."

A lengthy communication from R. H. Hewett was read, in which he strongly advocated the scheme. He was present, and made a speech in favor of the exhibition building.

Mr. Hughes made a second speech, in which he strongly advocated that its should be so located that people can spend an evening without having to go way out in the country.

Mr. Van Dorn made a sensible argument in favor of erecting a building in the city for the purpose of holding annual fairs, etc. He did not believe the buildings should be located in the city.

The minutes of the previous meeting were read and approved, after which the bills of the Black Diamond Coal Company were taken up. The secretary stated that the manager of the coal company had called on him and explained that one of the bills was for wood and the other for coal. They were for two separate and distinct firms, and the items as set forth were correct. The bills caused a good deal of discussion, and Mr. Kuhrts read the items, showing that as much as 2000 pounds of coal had been used in two days, which, he said, was out of the question, as it would take a man vere read and approved, after which

One or two transfers of saloon licenses were granted, and E. S. Fancher was allowed to transfer his license from East First street to Sound Spring, at the place known as the "Wigwam."

Chief Cooney called up the matter of the sickness of officers, saying that Lynch and Fitch were on the sick list, and said that the Police Surgeon had stated that he would recommend that they be allowed full pay for the time they were disabled. The Chief stated that no men had been put on in their place, and the clerk was instructed to make out their pay-warrant in full, on the presentation of the necessary certificate of the physician.

The usual bills were presented and ordered paid, after which the board adjourned.

A HOW-DE'DO.

J. MARION BROOKS'S LITTLE INJUNCTION PROCEEDING.

It Is to Be Fired at the Incoming City Administration-Application to the Supreme Court to Determine the Legality of the New

The Associated Press telegram from Sacramento, published in The Times yesterday morning, to the effect that a writ had been issued by the Supreme Court, at the instance of J. Marion Brooks, restraining Assessor John Fischer from discharging his duties, until the legality of the new charter can be tested, was the general topic of conversation on the streets yesterday, and caused something of a sensation in political circles. The first intimation of anything of the kind was published in The Times a week or ten days ago. When it was stated that something of the kind was peing prepared, but the exact nature of the proceetings and the name of the attorney could not be given, as those matters were kept secret. It is certain, however, that

Governor of the State of California for his approval or rejection, nor were they, nor either of them, signed or approved by said Governor. Mr. Brooks in his petition further sets forth that, as the Assessor commences his work on the first Monday in March, and is therefore working under the new charter, and that the matter is one of great public importance, and that he has no plain, speedy or adequate remedy be there. importance, and that he has no plain, speedy or adequate remedy, he therefore "prays for an alternative writ of prohibition, commanding the defendant to refrain from further proceeding in the matter specified herein until the further order of the court, and to show cause before this court, at a time and place specified in the writ, why he should not be absolutely restrained from any further proceedings in said matter."

matter."

Up to last night Mr. Fischer had not been served with any writ, and was inclined to regard the whole thing as a bluff. There is, however, something in it, for Mayor Bryson said that the writ would be served at 9 o'clock this morning, and various other prominent Democrats talked as though they knew all about it. The lawyer who is really working up the case is W. T. Baggett, and it is claimed that similar proceedings are to be instituted in regard to all of the new charters passed by the late Legislature. The following telegram was received here yesterday:

SAN FRANCISCO, March 20.

SAN FRANCISCO, March 20.
To Sheriff, Los Angeles: Serve the writ
of prohibition attached hereto.
W. T. BAGGETT,

W. T. BAGGETT,
Attorney for Petitioner.
In the Supreme Court of the State of California—J. Marion Brooks, petitioner, arainst John Fischer, City Assessor of the city of Los Angeles, respondent.
Prohibition—The people of the State of California, to John Fischer, City Assessor of the city of Los Angeles, State of California, to John Fischer, City Assessor of the city of Los Angeles, State of California, greeting: Whereas, it has been made inanifest to our Supreme Court by the affidavit of J. Marion Brooks, the party beneficially interested, that in the matter of assessing property in the city of Los Angeles, you, exercising judicial functions, have exceeded your jurisdiction, and that there is no appeal nor any other plain,

exercising judicial functions, have exceeded your jurisdiction, and that there is no appeal nor any other plain, speedy and adequate remedy; we therefore command you to show cause before this court in bank, at the city of Los Angeless, on Tuesday, April 2, 1890, at 2 p.m., why you should not be absolutely restrained from further proceedings in said matter. Witness: The Hon. W. H. Beatty, Chiet. Justice of our Supreme Court, at the controom in the city of San Francisco, this 19th day of March, A. D. 1889.

J. D. Spence, Clerk. By Ben M. Maddon, Deputy Clerk. Just what effect this will have on the new city government is not known. The old Council meets this morning at 9 o'clock, and if the writ is served, it will probably adjourn from time to time, as no business can be transacted. Everything will be completely blocked, until the case can be disposed of on April 2d, when the court will instruct the officers what course to pursue.

Fire Commissioners.

The Board of Fire Commissioners met in the Mayor's office yesterday morning, with His Honor, Mayor Bry son, presiding, and Messrs. Kuhrts and Hanley in attendance. Chief Mo-

and Hanley in attendance. Chief Moriarty was also present.

After the reading of the minutes, the usual bills were approved, after which J. C. McMenomy presented a claim for \$23.35, damages resulting to his horse and buggy from being run into at the corner of Ninth and Main streets by a hose cart, and alleging that the accident was due to the carelessness of the driver. The matter was laid over for one week and the driver cited to appear before the commission, after which the board adjourned.

The Ladies'Auxiliary of the Y.M.C. Dinner will be served by the ladies in Japanese costume from 6 to 8 o'clock, followed by a most pleasing programme, in which Mme. Mamie Perry-Davis, Prof. Henry Ludlam, elocutionist; the association quartette and others will participate. Music will be furnished during the evening by members of the association orchestra.

It Was a "Fill" for Benny.

A hair-raising story about a bloody duel between a couple of Japanese girls in a bagnlo on Sepulveda street, published in the Trombone yesterday morning, turns out to be a "fake."

Nothing is known at the police station about any such affair, nor were there any officers sent to investigate it. The only foundation in fact for the statements published was a "fill" which a wagrish officer gave to the reporter of that paper a few nights ago.

CHILD-BEATER KOLB. He Tries the Effect of a Habean

Child-beater Kolb was brought be fore Judge McKinley late yesterday afternoon on a writ of habeas corpus He is the man, it will be remen whom Justice Austin sentenced to 100 days in jail, for beating his little sick child, two hours before it died. He has been in jail some weeks, but his parental solicitude is such for the

osition that was not quite so broad.

The attorney then went on to lege that Kolb had had no trial be Justice Austin, and could not be confined without a trial. He said that the record showed that Kolb entered a plea of guilty when he did not, or if he did, was ignorant of what he was doing owing to his unfamiliarity with English; that Justice Austin refused to allow him to withdraw his plea and sent him up.

sent him up.

Deputy District Attorney McComas replied that Austin had given Kolb every legal right; that he entered a plea of guilty; that some witnesses were examined before the plea was

The Court denied the writ and Kolb, the miserable excuse of a man, went back to jail.

TRIED FOR BURGLARY,

But the Evidence Was Not Quite J. T. Williams, who is red-headed and long, was tried before Judge Mc-Kinley yesterday on a charge of burg-lary. He was held by the Justice on a complaint alleging that he entered Mr. Sumner's house in East Los Augeles and stole a suit of clothes. The case occupied most of the afternoon, the State being represented by Deputy

District Attorney McComas, and the

District Attorney McComas, and the defense by Attorney Peyton.

The evidence was circumstantial. Williams and a man named Dawson were at the house in the day time and at dusk. At that time they were observed, and halted as they were going away. Dawson had a bundle, which afterward proved to be the stolen suit of clothes. The men acted in a very suspicious manner, and when threatened with arrest, ran away. Williams was afterwards arrested. He explained his movements on the witness stand, saying that he had not known Dawson long, but they were drinking heavily all that day. He went to the house to look for a contractor named Beatty, for the purpose of trying to get work.

In view of all the circumstances, the jury could not contract the meselves that Williams stole the clothes, and brought in a verdict of not guilty. The prisoner acted like a school boy upon his discharge, and his head glowed with satisfaction.

WEST ENDERS.

They Take Steps to Secure Several The West End Board of Trade held its

regular weekly meeting at the brick block, corner Temp'e and Metcalf streets last evening, with a good attendance. A resolution requesting the Health

Officer to appoint a deputy residing in the northwestern portion of the city was unanimously adopted.

A committee of three was appointed to look after placing fire-alarm boxes in the district, placing electric light in front of Temple-street engine-house, and supplying a sound horse for use with the Temple-street are engine, in-stead of the "cripple and offcast" now used.

The Committee on Gas was instructed to draw petitions for electric lights at

essary points.

THAT IS THE TENDENCY OF THE UNITED STATES.

The Days of Westiny Combination and Degeneracy of the People Forecasting the Subversion of People Forecasting the People Forecasting the People Forecasting the People Forecasting People Forecasting the People

if the shepherd has left them unguarded. The motive spring in the human mind has always been selfshness and greed—never more strongly marked than in the present generation, which seems absorbed in the one soiltary idea of amassing wealth, no matter what the means may be for the attainment of those ends. It is a sad era when the reader sees in large capitals, unchallenged recitals of how the Legislatures are honey-combed with base parasites who sell their votes on any measure for a stipulated and understood price, and that the courts and juries are so corrupt that Justice is really blind, and cannot see those who are entitled to equity and redress. Gold plasters over the most moisome sores; and reputations not better than the thieves' and prostitutes' must pass muster equal to those whose escutcheon has never been tarnished. There can be no shock to present public morality which will exist longer than the effervescence of a glass of soda—and the masses read with the same equanimity, any public scandal. Just as when a great railroad magnate's published letter announced that—would not sit in trial of a certain cause in California, so that be might use greater influences in Washington.

Do not consider that I am seeking to turn back the torrent of vice, venality and corruption which pervade all localities—for that would be a useless task. These are simply repetitions of history, which precede the downfall of republics and nations, in the same stereotyped methods, from identical causes. I remember too well what Socrates said just prior to his execution: "Every man who inflexibly applies himself to prevent the violation of the laws and the practice of iniquity in a city will never do so long with impunity. It is absolutely necessary for him who would contend for justice, if he has the slightest wish to live, to remain in a private station, and never to have any share in public affairs."

The other American monopolies, trusts and combinations of wealth,

prosperity frequently casts a veil of false grandeur over real meanness and imperfections.

Experience overturns the airy fabrics that the sceptre shall be constantly bestewed on the most worthy by the free and incorrupt suffrage of the whole community. It teaches that in a large society the election of a monarch can never devolve to the wisest or to the most numerous part of the people. The army is the only order of men sufficiently united to concur in the same sentiment, and powerful enough to impose them on the rest of their fellow-citizens; but the temper of soldiers, habituated at once to violence and slavery, renders them very unfit quardians of a legal, or even a civil, constitution. Justice, humanity or political wisdom are qualities they are too little acquainted within themselves to appreciate them in others. Valor will acquire their esteem, and liberality will purchase their suffrage; but the first of these merits is often lodged in the most savage breasts, the latter can only exert itself at the expense of the public, and both may be turned against the possessor of present power by the ambition of a daring rival. We might find a repetition of history in the coming power of trusts. It has been said of Philip of Macedon that it was not Philip but his gold which subdued Greece; and that he bought his cities rather than took them. He consulted the oracle of Delphi and received this answer: "Make coin thy weapon, and thou'lt conquer all." The advice of the priestess became his rule, and he boasted that he had carried more places by money than arms; that he never forced a gate till after having attempted to open it with a golden key, and that he did not think any fortress impregnable into which a mule laden with silver could find an entrance.

The simple problem todsy is, "Can the railroads and trusts so shape matters as to control their employés and eventually compel them to obey any order?"

Are they not forcing tens of thousands of men every day to violate law without a question, when the ordinary days trusts and combinations of wealth, control and wield at least two millions more of men. A master mind who could guide the railroads would have at his beek and call an army of nearly three millions, besides the vast outside array of Heasians, ready to be bought by the highest bidder. If any ambitious leader desires to subvert this Republic, the command of the railroads will be the chief factor. The skilled labor of the roads, in coöperation with their capital, can stave New York in 30 days—can stop the whole commercial and manufacturing interests, and bankrupt agriculture. And yet these combinations are formed in violation of the spirit of existing laws, and everybody looks complacently upon their smooth-running schemes, and nobody attempts to vindicate the majesty of the law. Trusts are seeking to advance and control the prices of the necessaries of life, under sanction of legislation. And today the Legislatures of five States have been compelled to appoint consulting committees to effect some enactment to combat the cattle trusts. "Oh, these trusts can't do anything serious," says some nincompoop. "The people wouldn't submit to anything revolutionary." Yet history does not teach us how any nation ever untied the manacles which they voluntarily allowed to be locked upon their limbs. But what does the historian record? A few points will illustrate precisely what impends today.

The power of the sword is more sensibly felt in an extensive than in a small community. It has been calculated by the ablest politicians that no State, without being soon exhausted, can maintain above the hundredth part of its members in arms and idleness. So we see today in Europe, from the immense armaments, the destructive strain. With exhaustion or with continued war what comes? Riches and power to a few; with autocracy and loss of liberty, and poverty, misery and degradation to the masses. But although this relative proportion may be uniform, the influence of an army over the rest of society will vary according to the degree of its p

Garvanza and held an inquest on the body. But three witnesses were examined, W. F. D. Jones and A. F. Wagner, who went to Sprague's house with Harnischfeger to make the arrest, and Justice P. E. King, who issued the warrant. Nothing new was developed beyond what has already been published, and the jury, after a few minutes' deliberation, returned a verdict that the deceased, Anton Harnischfer, aged 40 years, a native of Germany, and married, came to his death on the 20th of March from the effects of a gunshot wound in the head, inflicted with a revolver in the hands of B. F. Sprague.

Last evening at 7 o'clock the Coroner also held an inquest on the body of Henry Gillman, the barber, who died suddenly on the sidewalk in front of the Anheuser-Busch saloon, on Main street, Tuesday night about 9 o'clock. During the afternoon Dr. D. Granville MacGowan made a post-mortem examination, and found unmistakable evidence that death was caused from an overdose of prussic acid. The odor was plainly distinguishable about the body, and the condition of the internal organs was such as to leave no room for doubt.

A. Fuhrburg testified that Gillman told him during the afternoon that he was going to get poison, but that as he frequently joked in this manner he thought nothing of it at the time.

Louis Tag, the dead man's partner, stated that he saw nothing unusual about him during the day, and that he appeared to be in good spirits.

Mendel Meyer, who first discovered Gillman in the water-closet of the Anheuser, said that he called out in German several times, "Air! Air!" and appeared to be smothering.

George Earle, the bartender, also testified to assisting Gillman out into the street, and had then telephoned for the patrol wagon.

The jury returned a verdict that "Henry Gillman, a native of Germany, aged 41 years, and divorced, came to his death on the 19th of March from the effects of an overdose of poison."

LETTERS TO THE TIMES.

The Motor Railway on Vermont Avenue—A Warning. Los Angules, March 18.—[To the Editor of THE TIMES.] Please allow space in your journal to draw the attention of property-owners on Vermont avenue from Park Station to the Washington-street car stables to the threatened danger to their property interests by the building of the Roserans Motor Railway along that route. I understand parties in connection with that line are quietly going about soliciting signatures for permission to build the line, and but few parties having property on Vermont avenue are approached. It is likely that enough signatures will be obtained from parties who do not own property on Vermont avenue, and thus the motor railway may be thrust upon this street without the owners mostly interested being made aware of their danger. Editor of THE TIMES.] Please allow

street without the owners mostly interested being made aware of their danger.

To build this line to Washington street, along Vermont avenue, would seriously depreciate the value of property on both sides of the street. It is only 60 feet wide, and barely wide enough for vehicles to drive on. The danger to children and the nuisance of smoke and noise from the engine would be enough to deter people from making their homes along the avenue. The motor line runs on Vermont avenue, south of Park Station, to Rosecrans, and property there has greatly depreciated in value, and no new buildings have been put up since it was constructed. Are property-owners going to allow this beautiful street to be torn up and monopolized by the motor, which is of no use to them whatever? The line connects with the estreet cars at the Agricultural Park, and there is no necessity for it to ruin the best part of Vermont avenue, which will be done unless owners of property affected are aroused to action and sign a protest which will soon be ready at Station R, and an injunction will be got out if necessary.

If the motor line wants to connect with the Washington street car line, why cannot they put on one-horse car service? That would not be objected to at all and would receive patronage from all along the avenue, but the motor engine will never be tolerated.

THE POLICE QUESTION.

The new city administration comes into power today, and considerable inture of the appointments which will be made, more especially to the Police Commission. It is believed that the slate agreed upon at the caucus still holds, with exception of the substitution of the name of Maj. W. C. for that of Gen. Johnson.

There have been some rumors afloat Police is again to be run in the interest of gamblers and bad characters generally b We cannot attach any eredence to this report, for the reaso that the gentlemen named for the office of Police Commissioners are known to be in favor of good govern ment, especially the latest appointee, Maj. Furrey, who has expressed himself strongly and publicly on the sub-ject, and further, because the following of any other course would be perfectly disastrous to the local Republican party.

Among other names for Chief of Police, that of J. F. Burns, has been mentioned. THE TIMES has fully investigated this gentleman's record, and has no hesitation in declaring that he is not the man for the place His affiliations are largely with the gambling element. It is charged that he was formerly a partner in a gambling house in this city. It is a fact that he was once arrested in a raid on a Los Angeles gambling game. Now, it is not necessary to waste words, in order to prove that the appointment WHAT is the matter with the Trom-of such a man will not do. The man ne's Santa Clara mining boom? It who holds his hands behind him and takes bribes from gamblers and bad characters, is their siave. Such a man must not be Chief of Police. The result would be merely a repetition of the old, wearisome, disgusting scan-dals of the Cuddy and other police régimes, with all their nauseous exposures of corruption, of which our decent citizens are so heartily sick. There is no need to say that the result of such a state of affairs would be the disastrous-and deserved-defeat of the Republican party at the next

municipal election As we have already remarked, we do not believe that there is any danger of such unfavorable developments as these, but it is well to mention these things, in order that nobody may plead the baby-act and represent that he did not understand the consequences of his action.

The persons who are responsible for the appointment of a good Chief of Police-and consequently for the maintenance of good order and the enforcement of the laws-are the Police Commissioners. The public understand this and will hold those gentlemen strictly to account for their actions

IS THE PROPOSED COUNTY DIVIS-ION LEGALS

THE TIMES, while perfectly willing to allow both sides a fair show, has een opposed from the start to the proposition to divide the county of Los Angeles, because:

First-Plain justice (independent of the any express law) seemed to de-mand that the wishes of a majority of the residents thereof, who are respon oners to select a site for the sible for its municipal importance and wealth, should be considered before either one should be lessened by segregation; and,

Second-The overwhelming opposition to the measure indicated that its enactment by the Legislature would be a positive disobeyal of or refusal to

listen to the popular voice.

The legislative body has, however, for reasons unnecessary to recount, passed a bill, which afterward received the unanimous approval of the dual Governor, by which it is attempted to create the county of Orange out of a specified portion of the present mag-nificent county of Los Angeles. The Times lays no claim, whatever other virtues it possesses, to any deep legal learning, but wishes at this time to suggest that the bill referred to may, ortunately, be stillborn, because un-

Laying aside for the purposes of the present any other features that may be repulsive to the law, it seems that the supreme judicial tribunal of this state has had before it one question State has had before it one question that arises in the discussion of the Orange County Bill, and which must be decisive. We refer to that provision in the bill which submits the question of its adoption or rejection to the popular vote. It is made the duty of the commissioners appointed under its provisions to call a popular election of the people within the proposed county, who shall decide whether it meets with their approval. If a certain

number of electors voting declare in the affirmative, then the Governor shall issue a proclamation declaring the law to be in effect and the county of Orange a recognized subdivision of the State. Otherwise the law shall be of no force or effect, and Los Angeles county will be permitted to remain as it is. The fact that the law does not allow the other voters of this county, but only those of the new county, a vote, may not be legal-certainly is not just; but the only objection to which we now allude the fact that it is submitted to the people at all. We consider this part of the bill as unauthorized, and working a nullity of the whole, for two

First-Because the Supreme Court of this State has said so in effect; and Second—Because it is delegating to people, or some of them, the power of passing upon the expediency or wisdom of a proposed law, of which the law-making power, to wit, the Legislature, is the sole and only constitutional judge.

Not only is it fundamental law, but law that the most ordinary layman can understand, that those powers not expressly prohibited or reserved to the people by the Constitution, are de-volved on the Legislature, and that, as to those with respect whereof the peo-ple have placed the responsibility upon the Legislature, the latter cannot by any hocus or legerdemain whatsover

return it to the people.

In other words, in the language of the Supreme Court of this State, in the forty-eighth volume of the California Reports, ex parte Wall, per Mr. Justice McKinstry, at page 314:

"While the power and responsibility of legislation remain where the Constitution has placed them, a proposed measure, before it can become a law, must pass through the ordeal of a public discussion in the Legislature. It is urged, however, that for the Legislature to enact a law that shall take effect provided the people of the State, or of a district, shall vote for it, is not to delegate the law-making power. This position has been upheld by courts of high character, but I think the de-cisions in which it has been denied are sustained by the better reason. The Legislature cannot transfer to others the responsibility of deciding what legislation is expedient or proper.

. To say that the Legislature may deem a law expedient, provided the people shall deem it expedient, is to suggest an abandonment of the legislative functions by those to whose wisdom and patriotism the Constitution has intrusted the prerogative of determining whether a law is

r is not expedient." In addition to the objections of injustice and unpopularity, the one of invalidity above referred can be made, the proper steps should be taken to invoke the decision of the courts as to whether an enactment so trebly obnoxious should be enforced.

THE Irish flag waved over the New York City Hall on St. Patrick's day. Why the Irish, more than the Ger man, or English, or French, or any other foreign flag should wave over an American public building, is some-thing that nobody but a New York Alderman could probably explain.

AMUSEMENTS.

CAMILLA URSO.—The public is in CAMILLA UBSO.—The public is in a mild state of uncertainty regarding the coming concert, due to the indecision of the management. The idea was to secure a large hall, but experience having taught Los Angeles people the futility of a concert at the Academy of Music, attempts were made to change the place to one of the theaters, and the sale of seats at the Academy temporarily stopped. The latest news is, however, that the concerts will be given on the dates, and at the place advertised, the programme for the first night, Friday, being as follows:

WASHINGTON, March 20,-Chief Justice WASHINGTON, March 20,—Chief Justice Fuller declined to say anything today in regard to the elopement of his daughter, Miss Pauline Fuller. This evening he declined to see any of the newspaper men who called at the family residence on Columbia Heights. The Chief Justice sent out word that he had nothing to say on the subject of their inquiries.

Columbia Heights. The Chief Justice sent out word that he had nothing to say on the subject of their inquiries.

The Chief Justice occupied his seat on the bench as usual today, and Mrs. Fuller was out shopping during the forenoon. It seems probable that their first information of the marriage came from newspaper sources, as Miss Mand Fuller, one of the elder daughters, when seen by a reporter for a local afternoon newspaper, expressed surprise at what she was toid, and said she did not believe that Pauline had eloped. The family are evidently much annoyed at Miss Pauline's action.

Miss Pauline's action.

Miss Pauline is not well known in Washington. She came here last October, and only stayed about two and a half months, making but few acquaintances. She is only 17 years old, and left the city before the society season had fairly commenced, it being her intention not to make her debut until next season. She was fond of the theater, and could be frequently seen at the playhouses. She did not seem to like Washington, and frequently expressed her desire to be back in Chicago.

The elopement overshadowed all other topics of conversation in social circles here, and much sympathy was expressed for Mrs. Fuller.

HUNTINGTON'S IDEA.

State Interference the Cause of Railway Depression.

St. Louis, March 20.—[By the Associated Press.] A special from El Paso, Tex., says: Hon. Collis P. Huntington, vice-president, and Col. A. N. Towne, general manager, of the Southern Pacific Railway Company, came up from the City of Mexico yesterday, and crossed over from Juarez to this city.

Huntington said: "I will have the best transcontinental line, and will make all needed improvements this year. A large expenditure will be made. I'll can get moderate American prices I will use iron ties for my entire system. Legislative interference is the cause of railroad stagnation and the depression of bonds and stocks. one small eastern railroad because I got my price."

NEW YORK, March 20.—The Sun says C.
P. Huntington is reported to be negotiating with Philadelphia ship-owners for the purchase of steamships of the American line to run from New York to Brazilian ports.
PHILADELPHIA, March 36.—William Neison, assistant manager of the American line of steamers, was seen this evening in reference to the reported purchase of the steamers of that line by C. P. Huntington. He knew nothing of any negotiations for the sale of the steamers Indiana, Illinois and Pennsylvania. The vessels could be bought, he said, by any person who would pay the price asked for them. No other official of the company could be seen today.

MORE COMPLICATIONS.

The West Virginia Contest Assumes a More Threatening Aspect.
CHARLESTON (W. Va.), March 20.—[By the Associated Press.] It is reported today that the Republican members of the Legislature have entered into an agreement, after a thorough canvass of the political situation, to refuse to obey the call of Gov. Wilson for an extra session of the body, on the ground that he is not the lawful Governor of the State, and is therefore without authority to issue such a call. This determination has reached the ears of the Democrats and has kicked up as immense hubbub. While the Democrats have one majority in the House they are two in the minority in the Senate, and they are busy tonight arranging to combat this new move of the opposition. He then attempted to assault Mrs. Mutter, but, failing, knocked her insensible by a blow of a hammer. Salzman then ransacked the house. Mrs. Mutter, recovering consciousness, endeavored to make her escape, but Salzman again knocked her down by repeated blows of the hammer and then fied. One of the children escaping from the haymow, gave the alarm, and physicians were summoned. Mrs. Mutter is not expected to survive her injuries. Salzman arrived from Bwitzerland November 1, 182.

The Governor today appointed the following commissioners to select a site for the Southern California Hospital for the Insane: M. S. Severance, Los Angeles; James Kerr, San Jacinto; K. P. Grant, Ventura; W. N. Hawley, Santa Barbara; Josèph Brown, San Bernardino.

The Governor signed the bill providing for a commission of three engineers to make investigation into the condition or San Joaquin and Sacramento rivers, and appointed William Ham Hall and P. A. Pumbert as two of the commissioners.

The Governor today appointed Joaquin Miller on the Forestry Commission, vice Frank J. Moffitt, removed.

It is believed that Gov. Waterman has decided not to sign the Glenn County Bill. He has not publicly stated his reasons, but one of them is said to be that he believes the question should be submitted to a vote of the people, as in the Orange County Bill, which he signed, and that power of appointment of commissioners should be vested in the Governor. He has until Thursday next at midnight, however, in which to sign the bill. He leaves tomorrow morning for San Diego, to arrange for the starting of his railroad on the 27th inst.

Results of the Quarantine Law in New Mexico.

ALBUQUERQUE (N. M.), March 20.—[By the Associated Press.] The Cattle Sanitary Board of this Territory reports that since the enactment of the quarantine law in 1887 against diseased cattle being admitted, no case of bovine disease, and particularly of Texas fever, has appeared among the herds. Cattle are everywhere in a healthy condition, and are going into the spring and summer seasons in most excellent fix. The condition, and are going into the spring and summer seasons in most excellent fix. The perfect health of the boving stock of New Mexico during the time the quarantine law has been in operation proves conclusively that Texas fever does not originate within the borders of this Territory, and the law against its possible introduction is so effectively administered that it cannot be brought here. Northern buyers of young stock for maturing purposes are in the Territory contracting for herds, which are permitted to pass quarantine lines north without inspection.

A Strong Appeal for Aid from this State.

Sar Francisco, March 20.—[By the Associated Press.] Mayor Pond issued the following appeal to citizens of San Francisco today: "It is represented to me, on authority upon which I rely, that millions of people of the Chinese Empire are actually starving, or are on the brink of starvation, by reason of extensive floods and the entire failure of the crops in certain provinces. I earnestly appeal to the benevolent people of this city for liberal subscriptions to relieve such appelling distress. In the name of our common humanity, save these poor people from starvation."

Washington, March 20.—The United States Consul-General at Shanghal has informed the State Department, at the request of the Shanghal Committee of the North China Relief Fund, of the distress existing over a large area of China. Thousands are starving and dying from exposure in Northern China. Kelief has already been received from America and England, but more is needed. Until the spring crops are gathered famine will continue, and, to insure spring planting, money is required from abroad, as in the famine districts there is neither seed nor money to aprehase it.

WASHINGTON NOTES.

Discovery of a Blunder at the Nor-Folk Navy-yard.

Washington, March 20.—|By the Associated Press.! It has been discovered that the large 16-foot bending rolls supplied to the Norfolk Navy-yard for use in the construction of the Texas do not meet the requirements of the contract in that the rolls are made to be adjusted by hand-power instead of by steam-power. The contractors are now altering the rolls to make them conform to the terms of the contract. After the rolls were purchased it was also found that their capacity was limited to 16-foot plates, while the bottom plates of the Texas are 20 feet in length. This mistake was made in the Norfolk Navy-yard, but it will not materially delay the construction of the Texas as the rolls can be used for a large range of work, and new 20-foot rolls can be procured by the time they are needed, which will be six months hence.

OFFICE-SEERERS.

How Washington Is Thronged With

Washington, March 8.—[Correspondence of The Times.] There are a good many people in Washington just now who want offices, and just as fast as they can get the opportunity, they are telling President Harrison about it. Many of them had a chance to make their wishes knewn yesterday, in the Cabinet room at the White House. The President devoted more of his time to business and less to the torment of handshaking than he had

previously done, but he shook many hands, nevertheless.

Very few of the office-seekers, unless Very few of the office-seekers, unless personal friends of the President, ventured to present themselves alone. The Senator or Representative who vouched for them and backed their claims was called upon to go with and introduce them. For this purpose, many statesmen, with their charges, went to see the President vesterday. Little more than the time for stating their business was given to anybody. The President had no leisure for listening to long arguments.

The President had no leisure for listening to long arguments.

There are some astoni hing reasons given why offices should be awarded to certain persons. A letter came yesterday which, though not addressed to the President, was intended to reach his eye eventually. "I have paid taxes cheerfully and with respect," it said, "for the past fifty-founyears. During the civil war I was called upon to serve my country as a soldier. Because of my family, I was unable to go in the army, but I bought a substitute and paid \$1000 for him." Upon these circumstances the writer based his claim for office.

cunstances the writer based his claim for office.

The President has given much of his time to the public receptions rather than disappoint many people from distant places who wanted to see him before leaving the city, but the majority of the st angers have now departed, and the President has given formal notice that only from 12 to 1 o'clock hereafter will the general public be received, while the time from 10 to 12 o'clock will be devoted to receiving Senators, Representatives and other privileged persons.

Mrs. Harrison held a pleasant informal reception yesterday from 3 to 4, in the red parlor of the White House, where a few friends called to pay their respects to the new mistress. The dense throng of strangers, who have for the past week besieged the mansion in their determined endeavors to gain an entrance at any and every hour of daylight, had at length reluctantly departed, finding the doors generally alosed to the public. In consequence of the tremendous rush of visitors, they were shut an hour earlier than usual, and comparative freedom from intrusion was observed.

Mrs. Harrison, though looking wearied from the severe stain of the past week's excitement, extended a genial welcome to all. Mrs. Harrison speaks very freely of her plans, and says she hopes to be able to settle down after this week, when she will devote most of her time to arranging the affairs of her household and getting domestic affairs into smooth, running order, which, in addition to the absorbing social obligations of her position, will doubtees prove a rather more difficult task than would at first appear. Mrs. Harrison will continue to receive her friends by appointment each afternoon of the present week from 3 to 4.

William Walter Phelps was a conspicuous visitor at the White House yesterday, and gossip cannot separate his name from a foreign mission. The brief period of time he spent with the President, however, did not indicate that any matter of such importance was discussed. There is hardly any doubt, in view of the close relations between Mr. Phelps and the head of the State Department, that if he desires to again go abroad as a United States Minister he will not have to wait long for the opportunity. for the opportunity.

Does It Pay?

Three-fourths of our people are troubled with dyspepsia or liver complaint in some form or other, which by nature of the disease has a depressing influence on the misd or body, preventing them from thinking or acting clearly in any matter of importance. Indigestion, coming up of food after eating, dyspepsia, sick headanhe, acidity of the stomach or any derangement of the stomach or liver (upon which the whole action of our system depends) are speedily and effectually overcome by the use of Green's August Flower. The most stubborn cases have yielded to its influence, as thousands of letters received will testify. The immense sale of this medicine is another guarantee of its merits (over a million and a half bottles soid last year). So we ask, will it pay you to suffer from any of the above diseases when you can have immediate relief in the saugust Flower? Three deess will prove its worth. PARIS, March 20.—[By Cable and Associated Press.] Le Paris says: "A group of holders of Société des Metaux shares has applied to the civil tribunal to dissolve the company, in order, if possible, to prevent the concern going into bankruptcy. It is believed that a judicial liquidator will be appointed immediately. The statutes of the new Comptoir National d'Escompte fix the capital of the concern at f.40,000,000. The capital may be increased, however, and it will probably soon be doubled."

It is stated that the holders of copper warrants have decided not to sell them, but to continue negotiations with mine-owners with the view of reaching an agreement for diminishing the production.

Copper shares were quoted at 4 p.m. as follows: Société des Metaux shares, f.28 75 centimes; Rio Tisto, f.277 5 centimes.

Cheap Lands. Good Lands. Prices and Terms to Encourage Settlers,

so much has been said and written booth the high prices for ordinary farming rand fruit land in Southern California that marry, Eastern people think that no good land can't land a least han \$200 per acre in any good locality. But if you will call at the headquarters of Simi Land and Water Company you will find that you can buy well watered stock ranges at \$10 als per acre, and every one of these ranges contains more or less good farming land. You can buy first-class valley lands for \$50 to \$75 per acre, and small tracts of \$10, 20 or \$60 acres, for fruit farms, at about the same price. Dolonies who want from \$1000 to \$40 per acres, in the same price of the lands, suitable for dividing amplaced on the lands, suitable \$40 per acre. PASADENA NEWS.

SOMETHING THE POLICE MIGHT LOOK UP.

The Lecture-No Good Acco dations-End of the Garvanz Tragedy - When You Can Be Entertained-Local and Personal

PASADENA, March 20 .- [Correspondunce of THE TIMES.] It has been a subject for much talk that three gambling hells are running wild in the very center of the city. The police do not seem to be able to catch on and the Enforcement Committee is either ignorant or lack leadership. Times reporter related the circum stances to the Marshal, and that official shook his head, saying, laconic "There is no law to prosecute connection with these resorts and their fascinations, a good story came to the ear of the writer this morning. It seems that, for fome time past, a certain young gentleman of stave manners, and not in a position to do these things, has been a regular attendant at the board, and generally comes out with a fair proportion of comes out with a fair proportion of chips. This is not all, for he lives at a distance from town and ties his horse against some very unfriendly person's fence. Last week this trusted erson came into town, tied the animal to the fence and allowed the poor dumb creature to brave the heavy storms while his master plied his red, white and blue. This thing has become much of a chestaut, and somebody threatens to bring suit for cruelty to animals. The police, who pace near the stamping ground each night, are said to notice the animal and go on, saying, "All is well, three p'clock." It is decidedly unpleasant to mention anything of this kind, but when someone threatens to bring suit.

when someone threatens to bring suit the young gent had better take the hint and go elsewhere, sinning no home

opened wide its portals for the first time last evening, when that distinguished lecturess, Mrs. Livermore, attracted an audience of 500 people. The proceeds were devoted to the purchase of a mammoth pipe-organ. Mrs. Livermore stepped to the platform a few minutes before 8 o'clock, and, after an introduction by Rev. E. L. Conger, held her audience in dreamland for nearly two hours. The past, present and future of the human race were admirably portrayed, and the labor and temperance questions weighed in the balance of public opinion. Her plea for the equal suffrage of the sexes was indeed well brought out.

NO GOOD ACCOMMODATIONS.

NO GOOD ACCOMMODATIONS. The following editorial remark, clipped from the Union of this evenis rather rough on the Acme, the only hotel giving any kind of accom-modations within the business center

modations within the business center:
It is a matter of much general regret that a city like Pasadena cannot boast of a single first-class hotel since the Carlton was closed. The Raymond aud the Painter are both splendid hostelries, but do not fully fill the field as hotels for transients, both being too far from the center of the city for this purpose. There is room for a good, fair-priced hotel that will give good accommodations to the tourist and visitor within walking distance of the depot. The cerner of Marengo and Colorado or Orange Grove and Colorado would make first-class locations, and if some of our capitalists would take this matter into consideration we think they would find it a feasible and profitable undertaking.

FROM LIFE TO DUST.

The sad tragedy by which two citizens of the little town of Garvanza yielded up their lives has reached its yielded up their lives has reached its sad end in the death of the innocent Constable, who passed away from unconsciousness to the life beyond at an early hour this morning. The deceased Constable now lies in the same room from which the transgressor was removed to the burying ground only a few hours ago. Sprague, the murderer, is now at rest in the Highland Cemetery. His victim will be buried at San Gabriel tomorrow afternoon at 2 o'clock, provided the inquest will have tery. His victim will be buried at San Gabriel tomorrow afternoon at 2 o'clock, provided the inquest will have been finished. A TIMES reporter visited the undertaking establishment this morning of Reynolds Bros., where both of the dead bodies lay. The outside public seemed to know nothing of their being there, consequently few people saw the remains. Sprague was attired in a plain black suit, and lay in a plain walnut coffin. At 2 o'clock this afternoon he was interred, a few of his relatives attending the funeral.

SPECIALS

Above are a few of the many BARGAINS to have on our list. For these and many POMEROY & GATES 16 Court St. Opp. Courthouse.

TO CAPITALISTS.

For a short time we offer for sale the famous "Las Penasquitas" nanos axteen miles from San D ego oxty, comprising about seven thousand acres, tenced and cross-fenced. One thousand acres of it produces annually a heavy volunteer crop of oats.

Most of the land is smooth and suitable for youngards. The adjoining town and valley of Poway are producing the finest raisin grapes in the State, free from all disease.

Never-failing springs supply water for stock, irrigation and domeath, use.

The improvements consist of a large filteen-room ranch house, corrals etc.; also orchard two bundred and fifty bearing orange trees filled with fruit, also pear, peach, prune and olives in bearing: vineyard of two varieties of grapes in full bearing; rare plants surround the house and prounds.

For stock purposes this ranch can be made to pay large, interest, and when subdivided will give increase opportunities.

The place is offered as a whole for \$25 per Bates, Room 12, 133 West First St.,

The manufacturers claim for THS PREMIUM that it has been improved and simplified in all its details by the best mechanical talent in America, who, with unlimited resources at their command, have combined only that which is practicable and dispensed with all compilested surroundings generally found in other machines.

It is the simplest machine, having the fewest parts, all strong, and with case-hardened bearings. Being free from complication it is easily cared for, never gots out of order, and is always ready for use. The most inexperienced can readily manage it. It has all the moders appliances and conveniences that go to make up the sum of excellences, successfully combining simplicity, durability, speed, strength and beauty, producing a machine unequaled for case of management and capacity for wide range of work.

PREMIUM HIGH-ARM

is light-running and noiseless, uses A STRAIGHT, SELF-SETTING NEEDLE, and miches the double-thread "Look Stitch." It is the perfection of mechanism for hemming, felling binding, cording, braiding, seaming, tucking, ruffling, gathering, embroidering, hemstite ing, quilting, etc.

It is adapted to every variety of sewing, from the lightest muslins to the heaviest clothe and will do a greater range of vary than any other way of the series of the ser binding, cording, brauing, seasons, sea

Scwing Mach OUR PREMIUM

HIGH-ARM

SEWING - MACHINE!

TESTIMONIALS:

Following are letters received by the Times-Mirror Company from subscribers who have purchased the Premium Sewing-machine through us:

"GIVING PERFECT SATISFACTION."

J. W. Ross, Pasadena, writes: The TimesMirror Sewing-machine is giving perfect estsfaction; in my opinion it is as good as any
165 machine. I have not done any heavy work
on it yet, but I think it will do it all right.

"HIGHLY PLEASED WITH IT."

Mrs. Edwin Brown, Los Angeles: In reply to yours of 28th would state that I am highly pleased with the Premium Sewing-machine I received with the Munkon. Gives every satisfaction; so easy to learn how to manage; does such excellent work; in fact cannot palse it too much, and would not take twice the dampoint it cost me.

oh one we use it the serves we like it.

Mrs. S. A. Ware. Pasadona: I have used your sewing-machine since last July. The more we use it the better we like it. On fasand heavy work it is splendid. We have tried the attachment. In fact it goes ahead of your advertisement so far.

TLIEB IT DETTER THAN THE \$125 SINGUL."
JOSEPH WILSON, LOS Angeles: The mashine types entire satisfaction. My wife likes it etter than the \$125 Singer that it has replaced.

"GIVES GOOD SATISFACTION."

S. W. True, East Los Angeles: We have
Eligit-Arm Machine and use it for light fail
loyding. It gives good satisfaction.

BUNS MICOTH-AND SEWS EVERYTHING BUT

"MUNS ELECTRA-AND SEWS TVANTZHING BUT BUTTONS."

William P. Wade, Los Angelos: The report of the chief engineer of the sewing department of my demestic establishment is to the effect that the sewing-machine lately furnished by you for \$22 arrived in good order and in due time, and has given entire estisfaction. It runs lightly and with very little noise and performs to perfection all kinds of sewing work with the exception of buttons. (When the freight is paid to Los Angeles by the Times-Mirror Company the price \$25.50.)

"THEED EN ALL AND LIKES THE MIRROR MA-CHIME BEST."

William L. Price, 218 Temple street, Los Angeles: My wife tried several 75 machines, and chose the Mirror Premium Sewing-machine as an equal to the best in the market, fer one-fourth of the money. It is perfect in all particulars, and admired by all whe see it. My wife has been using its everal months, and we both cheerfully recommend it to the public as represented.

THE HIGH-PRICED ARTICLE."

C. R. Spencer, Los Angeles: Having sold hundreds of the Remington Sowing-machines for \$65, which you are now offering with the [Webelly Minron at \$22, [255,56] when freight is paid to Les Angeles]. I wish to say that the machine you offer is identically the same as the high-priced article, both as to material, workmanship and capacity. Being a resident workmanship and capacity. Being a resident workmanship and experienced sewing-machine man, I will take pleasure in instructing any one in working the machine, in this place or violinity. THAT IN WORKMANSHIP AND MATERIAL AS

Mrs. J. W. Stringfield. Pomona: The High arm Mirror Sewing-machine came in good time, in excellent condition, without scratch or blemish, and I am delighted with it. We believe the machine is all that you recommend it to be, and think it a rare opportunity for those who may want a machine to get a first-class one cheap.

"PERFECT IN EVENT RESPECT."

Mrs. E. C. Crauston, Norwalk: The High arm Premium Machine serived in prime condition, and is perfect in every respect. Proight £2.50, with first cost added, making £23.50 for as good a machine as is usually sold through agents for \$75. Well pleased, [\$33.50 when freight is paid to Los Angeles.]

"YERY MUCH PLEASED WITH IT."

Mrs. Martha Allison, Downey: I am very much pleased with my machine as far as I have used it, and feel safe in saying that I have just as good a machine as if I had given 805 for it. Shall advise any of my friends to try this before buying my other, as I think w is fully as good as represented.

"BUNG LIGHT AND EAST - DOES ITS WORK WELL" to the machine that it is well liked. It runs light and easy, and does its work well. It is a very cheap machine at the price you fun-nish it.

"EQUAL TO THE BEST SHE EVER USED."
William T. Parcel, Compton: The High-arm
Sewing-machine ordered from your company
was received in good order, and Mrs. Parce
says it is equal to the best of any other kind
she has everused. "PROVES SATISFACTORY."

W. F. Beadley, San Gabriel: The sewing machine we received through your office proves satisfactory.

"MIPS TRINKS IT THE BEST SHE EVER USED."

J. W. McLellan, Tustin City: We received Premium Sewing-machine through your office, and my wife thinks it the best abe ever useds consequently are well pleased.

SUPERIOR IN SOME RESPECTS TO THE BEST.

S.A. Mattison, Los Angeles: My wife and sauchter are well pleased with your Times Mirror Sewing-machine. They have used several of the best makes of machines, and you ray your machine is superior in some respects a those they have used, and in no way inferior. They were at first afraid, as many are, no doubt, that it is too cheap to be first-class, but are now satisfied that it is as good as taachines costing three or four times as much.

"TIGHTENED THE SCREW AND SHE BUSS AND

"EIGHTENED THE SCREW AND SHE BURN AND THE BU

MADE."

Mrs. U. L. Shaffer, Orange: We received our High-armed Sewing-machine in good order, and I am very much pleased with R, and consider it one of the best investments we ever made. It is also a fine the machine and runs strong a good machine I do not think you needing a good machine I do not think you on ceding this invest \$22 in the machine and Mrunos, for \$25.00 when the Company pays treight to Los Angeles.]

MCRE THAN SATISFIED AND GLADLY RECOMMARTHA M. Shaffer. Orange: I thank you for
sending to me for testimonials, as I have set
ray new machine in the parlor without even
threading it, as I was very busy and had a
good machine ready for work and used to
quanting. So I did not take time to do any
iding with the new one until I received your
cetter. Then I brought mine and went to
running it to testit. I was more than estissted, and gladly recommend it to those who
ared a machine. I think I would have gained
than to have used it long ago.

"EQUAL TO ANY 865 MACRICE."

Mrs. A. W. Worm. Los Angeles: For the benefit of those who stand in need of a good sowing-machine, I will say that after using to "Premium Machine for about four mouths," I nod it equal to any 865 machine I have seen ___THIS MACHINE_

On last election day Officer Hawley arrested ex-Police Officer Willow for using vulgar language and acting in a disorderly manner at the polls on Fort street, near Fifth. The affair caused some talk at the time, and one or two papers published severe criticisms on Hawley. Yesterday the case came to trial before Justice Lockwood, and Willow was found guilty and fined \$10. Willow insists that a number of his material witnesses were absent, and that he will take an appeal.

The principal business before the meeting was filling the vacancy on the Police Commission caused by the resignation of Gen. E. P. Johnson, that gentleman having peramptorily refused to serve, giving as his reason that he could not spare the time from his business.

amptority refused to serve, giving as his reason that he could not spare the time from his business.

The principal candidates for the place were Messrs. Ferguson and Furrey, the latter gentleman carrying off the prize after a rather heated contest. The proceedings were not entirely harmonious, and it is claimed that at times the debate became rather heated.

Various other matters in connection with the new charter were discussed, among them the injunction which had been served on Assessor John Fischer, and its probable effect on the other officers. No other officers have been enjoined, and it is more than probable that the Democrats will show their good sense by quietly stepping down and out, and turning the offices over to their successors.

THEY NEVER SPEAK AS THEY PASS BY!

WE MEAN OUR "WEAK-KNEED COMPETITORS."

DENVER AND RIO GRANDE AND ROS Angeles every Treeday. To consider the past three days our opening has been the topic of conversation and our Second Floor a "Beehive."

OVERLAND EXCURSIONS LEAVE less care followed by the conversation and our Second Floor a "Beehive."

Call on or address JOHN CLARK, 51 N. Springst.

For the past three days our opening has been the topic of conversation and our Second Floor a "Beehive,"
Our modesty precludes citing the thousand and one expressions of delightful surprise evinced by the
daily throng of ladies to our Cloak, suit and Millinery Departments. Sales in these departments were surprisingly large and compelled us to duplicate many lines by wire.
